Those with undergraduate research experience who may be pursuing graduate school might consider including some *curriculum vitae (CV) elements* into their resume.

Notice the *functional section headers* on this resume, such as: research experience, certifications, and technical skills. Review CVs of graduate students or faculty in your field of interest for ideas of common content. Begin to mirror the future directions you want to take.

Additionally, if you *publish or present* – including in the student journals and conferences on campus – you may add these experiences using the referencing style for your field (e.g., APA, IEEE, MLA).
